Black or African American	16.9	
White	4.2	
American Indian/Alaska Native	*	
Asian/Pacific Islander	*	
Hispanic/Latino	*	
<p>Statistical note (*): Native American and Asian/Pacific Islander races represent <2.0 % of the Montgomery County population. In many instances, raw counts used to derive above rates for these races were less than 5 cases. It is statistically inaccurate to extrapolate such small numbers to the entire county; doing so yields rates not scientifically robust or accurate and leads to biased results. In several instances, a raw count for a race was lower than another race; however, when calculated into a rate, the rate became higher. This is due to the exceptionally small population of other minority races in Montgomery County. Therefore, it is not advisable that these figures are used. The same is true for Hispanic data regarding some of the above variables.</p>
