Native American	N/A	2008 ODH Data Warehouse
Asian/Pacific Islander	N/A	2008 ODH Data Warehouse
Hispanic	N/A	2008 ODH Data Warehouse

Statistical note: Native American and Asian/Pacific Islander races represent <2.0 % of the Montgomery County population. In many instances raw counts used to derive above rates for these races were less than 5 cases. It is statistically inaccurate to extrapolate such small numbers to the entire county as a whole; doing so yields rates not scientifically robust or accurate and leads to biased results. In several instances a raw count for a race was lower than another race; however, when calculated into a rate, the rate became higher. This is due to the exceptionally small population of other minority races in Montgomery County. As a consequence it is not advisable that these figures are used. The same is true for Hispanic data regarding some of the above variables.
