

COVID-19 Homelessness & Congregate Settings

Protecting Against COVID-19

Ohio Department of Health Director Amy Acton, M.D., MPH, strongly recommends that Ohioans are aware of the following work being done to address Ohioans who have unique living situations, including those who rely on homeless shelters or domestic shelters, those who with developmental disabilities or severe and persistent mental illness who live in group homes, and those individuals living in recovery houses.

- As part of the Philanthropy Strike Force, we have created a Homelessness Team dedicated to this specific work each day.
 - a. The Centers for Disease Control and Prevention issued guidelines about homeless shelters and domestic violence shelters. The Homelessness Team is customizing these guidelines for Ohio's local use.
 - b. The Coalition on Housing and Homelessness in Ohio, the Ohio Chapter of the National Alliance on Mental Illness, and Ohio Recovery Housing are helping work through what is needed on the front lines.
 - c. This team is working to incorporate the needs of our neighbors living in homelessness or with an addiction or mental health condition into state planning for access to healthcare through community health centers and planning for quarantine or isolation.
- Shelters aren't built for social distancing, so many communities are finding alternates to shelter or spreading out to other locations. Local communities have been asked to include homeless shelters in planning to more support these Ohioans.
- The Ohio Housing Financing Agency Board has approved \$5 million in unrestricted Agency General Fund Reserves to be used for Homelessness Prevention and Rapid Rehousing funds and Emergency Rental Assistance that will be distributed through the state's nine Continua of Care.
- The Ohio Development Services Agency has established the Emergency Shelter Gap Funding Program, a \$1 million effort to support emergency shelter providers during the COVID-19 state of emergency. Community development block grant dollars will be reallocated to emergency shelter providers to meet immediate needs for homeless individuals and households.

The Ohio Department of Mental Health and Addiction Services (OMHAS) is directing some federal opioid response funding to help people living in recovery housing or engaged in treatment to maintain their current housing and prevent homelessness.

- a. OMHAS is also deploying some federal funds to cover additional expenses that adult care facilities are taking on because of COVID-19.
- b. Ohioans can send an email to COVID19Housing@ohio.mha.gov with questions related to these issues.
